

Verlingue CHM at a glance

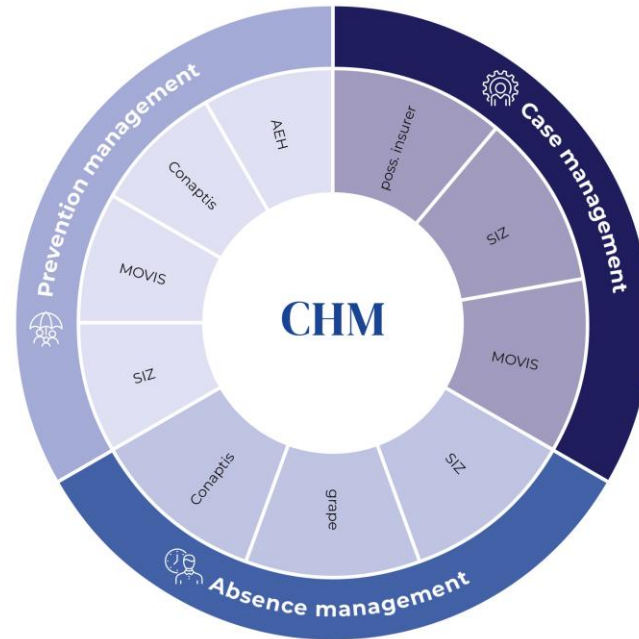

To minimise absences, we recommend a proactive approach with several or individual instruments.

Prevention management

- Preventive case management:
Early recognition of stress and proactive intervention
- Care management
- Organisational consulting
- Employee and specialist counselling
- Legal service / legal advice
- Management training / workshops
- Ergonomics

Absence management

- Absence management assessment
- Implementation support for absence management systems
- Key metrics and data analysis
- Strategies for reducing absences
- BBTcare-CM - web-based absence recording management, and evaluation tool

Case management

- Support for reintegration post-accident or illness
- Case monitoring by specialists
- Central coordination with involved agencies
- Tailored support based on individual needs
- Guidance on insurance-related legal matters
- Newplacement

Advantages

- Enhances workplace health
- Decreases absences and associated costs
- Selected partnerships
- Comprehensive service portfolio
- Exclusive special conditions: 5-15% off
- Verlingue: your neutral point of contact
